FORM PREVENTING THE USE OF PHOTOGRAPHS AND/OR VIDEOS OF STUDENTS OUTSIDE OF THE SCHOOL

Dear Parents/Guardians,

From time to time SHS will make videos and take photographs of our students. When we do this for normal school use, we do not require parents permission. Occasionally we like to use videos and photographs of our students and their class activities outside of the school and on our website.

Examples of these uses are: to show the Fresno community and the Diocese of Fresno what we do in our school, use for broadcast media and newspaper articles, presentations to other audiences at workshops, postings on our school website, and a variety of other school authorized purposes.

Your student might be included in videos and/or photographs that could be used for such activities, unless you object. Please sign below only if you **DO NOT** want your son/daughter included in any such videos or photographs, otherwise such use will be allowed.

I do not want my student included in any videos or photographs that would be used by the school.
